

Wensink Premium Seed Corn

11/2/18

“All the Performance at Half the Price”

2019 Fall Seed Corn Program

Early Order Seed Corn Program has begun and will end January 4, 2019. We have six new hybrids this year, two new conventional hybrids, three new VT Double Pro[®] hybrids and a new Roundup Ready[®] 2 hybrid. See the chart below and the enclosed hybrid descriptions. These are some exciting new hybrids that have top end yield potential across a wide range of conditions. Some varieties are limited, so order early for best selection. All orders will be filled on a first placed, first filled system.

We are now offering an **early order discount of \$39.00 off per unit** from the in-season list price. There is also an **early pay discount of \$2.00 per unit** for payment by January 16, 2019, and **up to \$7.00 per unit volume discount**.

Units	Discounts			YOUR COST* TRADITIONAL VARIETY	
	Volume	Early Order	Early Pay	Order by 1/4/2019	
				Pay on Pickup*	Pay by 1/18/2019
1 - 24	-	\$39.00	\$2.00	\$79.00	\$77.00
25 - 49	\$2.00	\$39.00	\$2.00	\$77.00	\$75.00
50 - 99	\$4.00	\$39.00	\$2.00	\$75.00	\$73.00
100 - 149	\$5.00	\$39.00	\$2.00	\$74.00	\$72.00
150 - 199	\$6.00	\$39.00	\$2.00	\$73.00	\$71.00
200 +	\$7.00	\$39.00	\$2.00	\$72.00	\$70.00

Order early for best seed size and variety selection. If you have questions, give us a call at (419) 359-1501.

Pickup Date: March 2019. All hybrids have 80,000 kernels per unit.

*Prices are subject to change and hybrid selection is dependent upon availability, so order early for best selection. Above price is for SX-630. Due to additional royalty fees, add \$5.00/unit for SX-601, add \$13.00/unit for SX-534, add \$15.00/unit for SX-165, add \$16.00/unit for SX-596, add \$18.00/unit for SX-568, add \$20.00/unit for SX-239 and SX-579 to the price above.

All remaining hybrid prices include cost of traits, see Quick Fact page for pricing.

Untreated corn is available for an extra \$10.00 per unit prepaid and **must be ordered by 1/4/2019**

Any corn not picked up by May 1, 2019, even if it is paid for, may be put back into inventory and made available for sale.

SmartStax[®] RIB Complete[®] Corn Blend - This technology provides control of the absolute broadest spectrum of above and below ground insects and herbicide tolerance (Roundup Ready[®] and LibertyLink[®]). These hybrids come treated with Acceleron[®] Seed Treatment. Refuge-In-Bag makes planting simple and convenient with no separate structured refuge required. This is the most advanced trait platform delivering all-in-one crop protection. The **SX-558RR SMARTSTAX RIB**, a 107 day powerhouse has new genetics and super yields in corn back to corn situations.

VT Double Pro[®] RIB Complete[®] Corn Blend - This provides protection from above ground insects and is Roundup Ready[®]. Above ground insects include Corn Ear Worm, Fall Army Worm, European and Southwestern Corn Borer. These hybrids come treated with Acceleron[®] Seed Treatment. Refuge-In-Bag makes planting simple and convenient with no separate structured refuge required. We are offering three new hybrids at this time: The **SX-319RR VT2PRO RIB** a 102 day short season hybrid, **SX-479RR VT2PRO RIB** a 105 day workhorse, and **SX-609RR VT2PRO RIB** a 109 day plot topper. We still have the very popular **SX-557RR VT2PRO RIB**, a 107 day proven performer with top yields.

Poncho[®] 250 for \$12.50 Program - If you order your seed corn treated with Poncho[®] 250 before the early order deadline of 1-4-19, it will cost only \$12.50 per unit. This is a saving of \$10.00 off the list price. Poncho treatments offer excellent insect control and convenience with no liquids to mix and no insecticide hoppers to fill. Poncho[®] 250 offers early season protection against Black Cutworms, Wireworms, White Grubs, Seed Corn Maggots, Grape Colaspis, Flea Beetles, Chinch Bugs, and other early-season pests. The cost is \$22.50 per unit after the early order deadline of 1-4-2019, if still available.

2019 PREMIUM SEED CORN

CONVENTIONAL HYBRIDS

SX-165

- RM 95-96 day
- Medium-tall dual purpose grain or silage hybrid
- Strong agronomics
- Healthy plant with very good late-season intactness
- Flex-ear style with average grain quality
- Outstanding yield potential for maturity
- Widely adapted across soil types

SX-239

- RM 101-102 Day
- Wide adaptability moves across various soils
- Excellent early vigor for minimum tillage and early planting
- Medium-tall plant with very good stalks and roots
- Long ears with good kernel depth with excellent test weight and yield

SX-534

- RM 105 day
- Outstanding top end yield potential
- Solid agronomics allows southern movement
- Good late season intactness
- Consistent girthy ears with deep kernels
- Very good seedling vigor, works well in no-till and conventional situations
- Medium-tall hybrid with medium ear placement

SX-568

- RM 106 day
- Widely adapted hybrid
- Excels in all crop rotations
- Works in all soil types from high fertility to wetter clays
- Medium-tall plant with semi-flex ear
- Very good test weight
- Good potential as a dual purpose hybrid

SX-579

- RM 108-109 day
- Outstanding yields!!
- Very good test weight and kernel depth
- Excellent early vigor works in no-till and minimum-till
- Excellent roots with very good stalks
- Medium height plant with very good fall intactness
- Super disease package, good GLS and NCLB tolerance

SX-596

- RM 109 day
- Strong emergence and fast early season growth for both conventional and no-till
- Medium plant height
- Excellent roots and very good stalks
- Very showy plant with very good fall intactness
- Semi-flex long slender ears with average grain quality
- Medium-full season maturity with very consistent yield potential

SX-601

- RM 107-109 day
- Outstanding yield potential
- Excellent eye appeal
- Excellent seedling vigor and early growth for both conventional and no-till situations
- Wide adaptability allows greater planting flexibility
- Good general disease tolerance
- Large girthy ears, with better test weight and grain quality

SX-630

- RM 109-110 day
- Improvement on SX-635A
- Shows impressive early growth
- Strong stalk & roots
- Excellent conventional or no-till choice
- Large girthy ears
- Good dry down and staygreen
- Adapts well to various soil types, and excels with high management

Most hybrids can be treated with

Poncho® 250. See page 1 for details.

- Provides seed and seedling protection against all seven major early corn insect pests, up to the 5-leaf stage.
- Contact and systemic activity is a highly effective broad-spectrum insect control.

Always read and follow label directions. Poncho® is a registered trademark of Bayer.

2019 PREMIUM SEED CORN

VT Double Pro[®] RIB Complete[®] Corn Blend Hybrids

All VT Double Pro[®] RIB Complete[®] Corn Blend Hybrids feature:

- Roundup Ready[®] 2 Technology
- Roundup Ready[®] flexibility and protection from above ground insects, including Corn Ear Worm, Fall Army Worm, European and SW Corn Borer
- Refuge-In-Bag (RIB) makes refuges simple and convenient
- **All hybrids come treated with Acceleron[®]**

SX-319RR VT2PRO RIB

- RM 101-102 day
- **Roundup Ready[®] 2 Technology**
- Protection from above ground insects
- Wide adaptability moves across various soils
- Excellent early vigor for minimum tillage and early planting
- Medium-tall plant with very good stalks and roots
- Long ears with good kernel depth with excellent test weight and yield

SX-479RR VT2PRO RIB

- RM 105 day
- **Roundup Ready[®] 2 Technology**
- Protection from above ground insects
- Medium-tall hybrid with strong stalks and roots
- Flex-ear with excellent girth (16-18 Kernel Rows)
- Impressive disease tolerance
- Outstanding yield potential with very good dry down

SX-557RR VT2PRO RIB

- RM 107 day
- **Roundup Ready[®] 2 Technology**
- Protection from above ground insects
- Widely adapted variety
- Excels in all crop rotations
- Works in all soil types from high fertility to wet clay
- Medium-tall plant with semi-flex ear
- Very good test weight
- Good potential as a dual purpose hybrid

SX-609RR VT2PRO RIB

- RM 108-109 day
- **Roundup Ready[®] 2 Technology**
- Protection from above ground insects
- Outstanding yields with very good test weight and kernel depth
- Excellent early vigor works in no-till and minimum-till
- Excellent roots with very good stalks
- Medium height plant with very good fall intactness
- Super disease package with good GLS and NCLB tolerance

2019 PREMIUM SEED CORN

SmartStax[®] RIB COMPLETE[®]

SmartStax[®] RIB Complete[®] Corn Blend Hybrids feature:

- Roundup Ready[®] 2 Technology
- LibertyLink[®] herbicide resistance
- Refuge-In-Bag (RIB) solution with 5% refuge, more high yielding corn per acre
- RIB makes refuges simple and convenient
- Protection from above ground and below ground insects
- Treated with Acceleron[®]

SX-558RR STAX RIB

- RM 107 day
- Roundup Ready[®] 2 Technology
- LibertyLink[®] herbicide resistance
- Widely adapted hybrid
- Excels in all crop rotations
- Works in all soil types from high fertility to wet clay
- Medium-tall plant with semi-flex ear
- Very good test weight
- Good potential as a dual purpose hybrid

Roundup Ready[®] Corn 2

SX-320RR

- RM 101-102 day
- Roundup Ready[®] 2 Technology
- Wide adaptability moves across various soils
- Excellent early vigor for minimum tillage and early planting
- Medium-tall plant with very good stalks and roots
- Long ears with good kernel depth with excellent test weight and yield

Monsanto Company is a member of Excellence Through Stewardship[®] (ETS).

Monsanto products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. **Only commercialized products** have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship[®] is a registered trademark of Biotechnology Industry Organization.

B.t. products may not yet be registered in all states. Check with your Monsanto representative for the registration status in your state.

IMPORTANT IRM INFORMATION: RIB Complete[®] corn blend products do not require the planting of a structured refuge **except** in the Cotton-Growing Area where corn earworm is a significant pest. SmartStax[®] RIB Complete[®] corn blend is not allowed to be sold for planting in the Cotton-Growing Area. **See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.**

ALWAYS READ AND FOLLOW DIRECTIONS FOR USE ON PESTICIDE LABELING. IT IS A VIOLATION OF FEDERAL AND STATE LAW to use any pesticide product other than in accordance with its labeling. NOT ALL formulations of dicamba or glyphosate are approved for in-crop use with Roundup Ready 2 Xtend[®] soybeans. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USES AND APPROVED FOR SUCH USE IN THE STATE OF APPLICATION. XTENDIMAX[®] HERBICIDE WITH VAPORGRIP[®] TECHNOLOGY AND IN CROP USES MAY NOT BE APPROVED IN ALL STATES. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with Roundup Ready 2 Xtend[®] soybeans.

Roundup Ready 2 Xtend[®] soybeans contains genes that confer tolerance to glyphosate and dicamba. Glyphosate will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Contact your Monsanto dealer or refer to Monsanto's Technology Use Guide for recommended weed control programs.

Roundup Ready[®] technology contains genes that confer tolerance to glyphosate, an active ingredient in Roundup[®] brand agricultural herbicides. Agricultural herbicides containing glyphosate will kill crops that are not tolerant to glyphosate.

Acceleron[®], Genuity[®], RIB Complete and Design[®], RIB Complete[®], Roundup Ready 2 Technology and Design[®], Roundup Ready[®], Roundup[®], SmartStax and Design[®], SmartStax[®], VT Double PRO[®], Roundup Ready 2 Xtend[®], Roundup Ready 2 Yield[®], Roundup Ready PLUS[®], VaporGrip[®], and XtendiMax[®] are trademarks of Bayer Group. LibertyLink[®] and the Water Droplet Design[®] are registered trademarks of BASF Corporation. Herculex[®] is a registered trademark of Dow AgroSciences LLC. Agrisure Vip-tera[®] is a registered trademark of Syngenta. Respect the Refuge and Corn Design[®] and Respect the Refuge[®] are registered trademarks of National Corn Growers Association. All other trademarks are the property of their respective owners.

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the Monsanto Technology/Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements.
