

Wensink Premium Seed Corn

“All the Performance at Half the Price”

2025 Fall Seed Corn Program

Early Order Seed Corn Program has begun and **will end January 3, 2025**. See the chart below and the enclosed hybrid descriptions. These are some exciting hybrids that have top end yield potential across a wide range of conditions. Some varieties are limited, so order early for best selection. All orders will be filled on a first placed, first filled system.

We are now offering an **Early Order Discount of \$79.00 off per unit** from the in-season list price. There is also an **Early Pay Discount of \$2.00 per unit** for payment by January 19, 2025 and **up to \$7.00 per unit Volume Discount**.

Units	Volume	Discounts		YOUR COST* TRADITIONAL VARIETY	
		Early Order	Early Pay	Pay on Pickup*	Pay by 1/19/2025
1 - 24	-	\$79.00	\$2.00	\$94.00	\$92.00
25 - 49	\$2.00	\$79.00	\$2.00	\$92.00	\$90.00
50 - 99	\$4.00	\$79.00	\$2.00	\$90.00	\$88.00
100 - 149	\$5.00	\$79.00	\$2.00	\$89.00	\$87.00
150 - 199	\$6.00	\$79.00	\$2.00	\$88.00	\$86.00
200 +	\$7.00	\$79.00	\$2.00	\$87.00	\$85.00

Order early for best seed size and hybrid selection. If you have questions, give us a call at (419) 359-1501.

Pickup Date: March 2025. All hybrids have 80,000 kernels per unit.

*Prices are subject to change and hybrid selection is dependent upon availability, so order early for best selection.

Above price is for SX-630. See Quick Facts page for pricing for all other varieties.

Untreated corn is available for an extra \$10.00 per unit prepaid and **must be ordered by 12/31/2024**

Any corn not picked up by May 1, 2025, even if it is paid for, may be put back into inventory and made available for sale.

SmartStax® RIB Complete® Corn Blend - This technology provides control of the absolute broadest spectrum of above and below ground insects and herbicide tolerance (Roundup Ready® and LibertyLink®). These hybrids come treated with Acceleron® Seed Treatment. Refuge-In-Bag makes planting simple and convenient with no separate structured refuge required. This is the most advanced trait platform delivering all-in-one crop protection. **SX-584RRSTAX RIB**, a 107 day powerhouse featuring new genetics and super yields in corn back to corn situations.

VT Double Pro® RIB Complete® Corn Blend - This provides protection from above ground insects and is Roundup Ready®. These hybrids come treated with Acceleron® Seed Treatment. Refuge-In-Bag makes planting simple and convenient with no separate structured refuge required. We are offering three hybrids at this time: **SX-319RR VT2PRO RIB** a 102 day short season hybrid, the 107 day **SX-553RR VT2PRO RIB**, and the very popular 109 day plot topper **SX-609RR VT2PRO RIB**.

PowerCore® Enlist® Refuge Advance® Corn Hybrids - This trait stack provides protection from above ground insects and is part of the Enlist® system. This trait stack gives you glyphosate, 2,4-D choline, glufosinate and FOP herbicide tolerance. These hybrids come treated with Acceleron® Seed Treatment and Refuge-In-Bag makes planting simple and convenient. We are offering one hybrid at this time, **SX-454PC ENLIST RIB**, a 105 day maturity hybrid with diverse genetics. We have received many positive comments about this variety.

Poncho® 250 for \$15.50 Program - If you order your seed corn treated with Poncho® 250 before the early order deadline of 1-3-25, it will cost only \$15.50 per unit. This is a saving of \$15.00 off the list price. Poncho treatments offer excellent insect control and convenience with no liquids to mix and no insecticide hoppers to fill. Poncho® 250 offers early season protection against Black Cutworms, Wireworms, White Grubs, Seed Corn Maggots, Grape Colaspis, Flea Beetles, Chinch Bugs, and other early-season pests. The cost is \$30.50 per unit after the early order deadline of 1-3-2025, if still available.

2025 PREMIUM SEED CORN

CONVENTIONAL HYBRIDS

SX-152

- RM 95-96 day
- Dominant yield performance for its maturity across all environments
- Very girthy flex ear adapts to moderate planting populations
- Medium statured hybrid with very good roots and stalks with very good standability
- Outstanding grain variety that also works well for silage

SX-239

- RM 101-102 day
- Wide adaptability moves across various soils
- Excellent early vigor for minimum tillage and early planting
- Medium-tall plant with very good stalks and roots
- Long ears with good kernel depth with excellent test weight and yield

SX-495

- RM 105 day
- Medium-tall with above average stalks and roots
- Long ear with excellent flex and big kernels
- Increased health, better on leaf diseases and good late season stay green
- Moderate population will work best as plant has above average ear flex
- Handles stress well, moves across all soil types, and very versatile

SX-523

- RM 106 day
- Wide adaptability with consistent high yield performance
- Very good emergence and seedling vigor for cold soil.
- Works well with not-till, minimum-till, and conventional situations
- Very good drought and heat tolerance
- Works well across all soil types
- Uniform long girthy ear with good flex and average test weight

SX-574

- RM 107-108 day
- High performing hybrid with excellent agronomics
- Very Strong disease package including Goss's Wilt and Tar spot
- Medium long girthy ear with very good grain quality and test weight
- Widely adapted across soil types and works with a wide range of populations

SX-579

- RM 109-110 day
- Outstanding yields!
- Very good test weight and kernel depth
- Excellent early vigor works in no-till and minimum-till
- Excellent roots with very good stalks
- Medium height plant with very good fall intactness
- Super disease package, good GLS and NCLB tolerance

SX-630

- RM 109-110 day
- Shows impressive early growth
- Strong stalk & roots
- Excellent conventional or no-till choice
- Large girthy ears
- Good dry down and staygreen
- Adapts well to various soil types, and excels with high management

Most hybrids can be treated with Poncho® 250.

See page 1 for details.

- Provides seed and seedling protection against all seven major early corn insect pests, up to the 5-leaf stage.
- Contact and systemic activity is a highly effective broad-spectrum insect control.

Always read and follow label directions.

Poncho® is a registered trademark of BASF Corporation.

2025 PREMIUM SEED CORN

VT Double Pro® RIB Complete® Corn Blend Hybrids

All VT Double Pro® RIB Complete® Corn Blend Hybrids feature:

- Roundup Ready® 2 Technology
- Roundup Ready® flexibility and protection from above ground insects, including Corn Ear Worm, Fall Army Worm, European and SW Corn Borer
- Refuge-In-Bag (RIB) makes refuges simple and convenient
- **All hybrids come treated with Acceleron®** which includes Poncho for insect protection and four different fungicides to protect against soil and seed-borne diseases

SX-319RR VT2PRO RIB

- RM 101-102 day
- **Roundup Ready® 2 Technology**
- Protection from above ground insects
- Wide adaptability moves across various soils
- Excellent early vigor for minimum tillage and early planting
- Medium-tall plant with very good stalks and roots
- Long ears with good kernel depth with excellent test weight and yield

SX-553RR VT2PRO RIB

- RM 107 day
- **Roundup Ready® 2 Technology**
- Protection from above ground insects
- Wide adaptability with consistent high yield performance
- Very good emergence and seedling vigor for cold soil.
- Works well with not-till, minimum-till, and conventional situations.
- Very good drought and heat tolerance
- Works well across all soil types
- Uniform long girthy ear with good flex and average test weight

SX-609RR VT2PRO RIB

- RM 109-110 day
- **Roundup Ready® 2 Technology**
- Protection from above ground insects
- Outstanding yields with very good test weight and kernel depth
- Excellent early vigor works in no-till and minimum-till
- Excellent roots with very good stalks
- Medium height plant with very good fall intactness
- Super disease package with good GLS and NCLB tolerance

Roundup Ready® Corn 2

SX-320RR

- RM 101-102 day
- **Roundup Ready® 2 Technology**
- Wide adaptability moves across various soils
- Excellent early vigor for minimum tillage and early planting
- Medium-tall plant with very good stalks and roots
- Long ears with good kernel depth with excellent test weight and yield
- **Treated with Acceleron®** which includes Poncho for insect protection and four different fungicides to protect against soil and seed-borne diseases

2025 PREMIUM SEED CORN

PowerCore® Enlist® Refuge Advance® Corn Hybrids

PowerCore® Enlist® Refuge Advance® Corn Hybrids feature:

- Broad-spectrum above-ground insect control with three distinct modes of action
- Stacked with the Enlist® corn trait
- Builds on glyphosate system with additional tolerance to 2,4-D choline in Enlist® herbicides, glufosinate and FOP herbicides
- Refuge-In-Bag (RIB) solution with 5% refuge, more high yielding corn per acre
- RIB makes refuges simple and convenient
- **Treated with Acceleron®** which includes Poncho for insect protection and four different fungicides to protect against soil and seed-borne diseases

SX-454PC ENLIST RIB

- PowerCore® Enlist®
- RM 105 day
- Roundup®, Liberty®, and Enlist One® herbicide tolerant
- Protection from above ground insects
- Very impressive disease package, including tar spot
- Tremendous health and intactness with strong stalks
- Widely adapted with long girthy ears and high test weight
- Works well in heavy tough soils
- Performs well in no-till and minimum till situations
- Excels in highly productive soils

SmartStax® RIB Compete® Corn Blend Hybrids

SmartStax® RIB Compete® Corn Blend Hybrids feature:

- **Roundup Ready® 2 Technology**
- **LibertyLink® herbicide resistance**
- Refuge-In-Bag (RIB) solution with 5% refuge, more high yielding corn per acre
- RIB makes refuges simple and convenient
- Protection from above ground and below ground insects
- **Treated with Acceleron®** which includes Poncho for insect protection and four different fungicides to protect against soil and seed-borne diseases

SX-584RR STAX RIB

- RM 107 day
- **Roundup Ready® 2 Technology**
- **LibertyLink® herbicide resistance**
- Wide adaptability with consistent high yield performance
- Very good emergence and seedling vigor for cold soil
- Works well with not-till, minimum-till, and conventional situations
- Very good drought and heat tolerance
- Works well across all soil types
- Uniform long girthy ear with good flex and average test weight

A CLOSER LOOK AT THE ENLIST® WEED CONTROL SYSTEM FOR CORN.

2,4-D choline | Glyphosate | Glufosinate | FOP Herbicides

Enlist Duo® and Enlist One® herbicides with Colex-D® technology are the only herbicides containing 2,4-D that are authorized for preemergence and postemergence use on PowerCore® Enlist® corn crops.

- Convenient proprietary blend of 2,4-D choline and glyphosate
- The two sites of action work together to deliver control of yield-robbing weeds and help prevent resistance

On-Target Application

- 90% less drift than traditional 2,4-D
- 96% less volatile than 2,4-D ester

- Straight-goods 2,4-D choline with additional tank-mix flexibility
- Provides additional tank-mix flexibility with Liberty® herbicide and other qualified tank-mix products, allowing for a customized weed control program to fit each farm

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all applicable regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

B.t. products may not yet be registered in all states. Check with your seed brand representative for the registration status in your state.

IMPORTANT IRM INFORMATION: Certain products are sold as RIB Complete® corn blend products, and do not require the planting of a structured refuge **except** in the Cotton-Growing Area where corn earworm is a significant pest. Products sold without refuge in the bag (non-RIB Complete) require the planting of a structured refuge. **See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.**

Roundup Ready® Technology contains genes that confer tolerance to glyphosate. Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. Plants that are not tolerant to glyphosate may be damaged or killed if exposed to those herbicides. Respect the Refuge and Corn Design® and Respect the Refuge® are registered trademarks of National Corn Growers Association. Acceleron®, RIB Complete®, Roundup Ready 2 Technology and Design®, Roundup Ready®, SmartStax®, and VT Double PRO® are trademarks of Bayer Group

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the Technology/Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation and agreement to comply with the most recent stewardship requirements.

Seeds containing the PowerCore® Enlist®, PowerCore® Enlist® Refuge Advanced®, and Enlist® Corn - REFUGE traits are protected under one or more U.S. patents which can be found at: www.traitstewardship.com. The purchase of this traited seed includes a limited license to produce a single crop in the United States. The use of seed from such a crop and/or the progeny thereof for propagation or seed multiplication or for production or development of a hybrid or different variety of seed is strictly prohibited. You acknowledge and agree to be bound by the terms and conditions of the following documents in effect at the time of planting of this seed: (i) the Corteva Agriscience Technology Use Agreement and (ii) the Product Use Guides for all technologies in this seed, including the Herbicide Resistance Management (HRM), and Use requirements.

To plant PowerCore Enlist, PowerCore Enlist Refuge Advanced, and Enlist Corn - REFUGE seed, you must have a limited license from Corteva Agriscience (or other appropriate affiliates). In consideration of the foregoing, Corteva Agriscience grants to the Grower a limited license to use its technology to produce only a single commercial crop in the United States under the terms and conditions set forth in the Technology Use Agreement in effect at the time of planting of this seed.

IRM - Properly managing trait technology is key to preserving it as a long term crop protection tool. Growers who fail to comply with IRM requirements risk losing access to this product. To help preserve the effectiveness of B.t. corn technologies, growers planting B.t. corn technologies are required to follow an IRM Plan. Consult the Corn Product Use Guide for appropriate refuge configuration options. Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed as set forth in the Technology Use Agreement and Product Use Guide. By opening and using a bag of seed, you are reaffirming your obligation to comply with the most recent stewardship requirements. For complete details on IRM requirements for hybrids with Bt technology, including refuge examples and important information on the use of insecticides on refuge and Bt corn acres, please consult appropriate Product Use Guide. Go to www.corteva.us/Resources/trait-stewardship.html to download the latest Corteva Agriscience Corn Product Use Guide.

Corteva Agriscience is a member of Excellence Through Stewardship® (ETS). Corteva Agriscience products are commercialized in accordance with ETS Product Launch Stewardship Guidance and in compliance with the Corteva Agriscience policies regarding stewardship of those products. In line with these guidelines, Corteva Agriscience's product launch process for responsible launches of new products includes a long-standing process to evaluate export market information, value chain consultations, and regulatory functionality. Growers and end-users must take all steps within their control

to follow appropriate stewardship requirements and confirm their buyer's acceptance of the grain or other material being purchased. For more detailed information on the status of a trait or stack, please visit www.biotradestatus.com. Excellence Through Stewardship® is a registered trademark of Global Stewardship Group.

Following burndown, Enlist Duo® and Enlist One® herbicides with Colex-D® technology are the only herbicides containing 2,4-D that are authorized for preemergence and postemergence use with Enlist® corn and soybeans. Consult Enlist® herbicide labels for weed species controlled. Enlist Duo and Enlist One herbicides are not registered for use or sale in all states and counties; are not registered in AK, CA, CT, HI, ID, MA, ME, MT, NH, NV, OR, RI, UT, VT, WA and WY; and have additional subcounty restrictions in AL, GA, TN and TX, while existing county restrictions still remain in FL. All users must check "Bulletins Live! Two" no earlier than six months before using Enlist One or Enlist Duo. To obtain "Bulletins," consult epa.gov/esp/, call 1-844-447-3813, or email ESPP@epa.gov. You must use the "Bulletin" valid for the month and state and county in which Enlist One or Enlist Duo are being applied. Contact your state pesticide regulatory agency if you have questions about the registration status of Enlist® herbicides in your area. **ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. IT IS A VIOLATION OF FEDERAL AND STATE LAW TO USE ANY PESTICIDE PRODUCT OTHER THAN IN ACCORDANCE WITH ITS LABELING. ONLY USE FORMULATIONS THAT ARE SPECIFICALLY LABELED FOR SUCH USE IN THE STATE OF APPLICATION. USE OF PESTICIDE PRODUCTS, INCLUDING, WITHOUT LIMITATION, 2,4-D-CONTAINING PRODUCTS NOT AUTHORIZED FOR USE WITH ENLIST CORN AND SOYBEANS, MAY RESULT IN OFF-TARGET DAMAGE TO SENSITIVE CROPS/AREAS AND/OR SUSCEPTIBLE PLANTS, IN ADDITION TO CIVIL AND/OR CRIMINAL PENALTIES.** Additional product-specific stewardship requirements for Enlist crops, including the Enlist Product Use Guide, can be found at www.traitstewardship.com. POWERCORE® is a registered trademark of Bayer Group. POWERCORE® multi-event technology developed by Corteva Agriscience and Bayer Group. Liberty®, LibertyLink® and the Water Droplet Design are registered trademarks of BASF. ®Roundup and Roundup Ready are registered trademarks of Bayer Group. Always follow IRM, grain marketing and all other stewardship practices and pesticide label directions. B.t. products may not yet be registered in all states. Check with your seed representative for the registration status in your state.
