

SX- 599RR VT3

109 Day RM

SX-599RR VT3 is an 108-109 RM corn with high yield potential and very good defensive traits. This variety has it all, it contains protection from corn borer, corn rootworm, and the Roundup Ready Gene, plus treated with Poncho® 250 Seed Applied Insecticide. The combination of excellent roots and staygreen with very good stalks results in flexibility at harvest.

Key Strengths

- YieldGard VT® Triple has corn borer and rootworm protection plus the flexibility of the Roundup Ready gene
- Excellent roots and staygreen
- Very good emergence, stalks, harvest appearance, and drydown
- High yield potential

Management Tips

- Roundup Ready® gene simplifies weed management
- Works well on all soil types, including heavy clay soils
- Plant at medium-high to high populations (30k-36k) for maximum yield
- Adapted to all tillage systems

Product Characteristics

Category	Characteristic	Value
MANAGEMENT	Value Added Trait	VT3
	Insect Resistance Management	Y
	Relative Maturity	108-109
	GDUs to Mid-pollination	1286
	GDUs to Black Layer	2455
PLANTING	Planting Rate	MH-H
	Emergence	VG
GROWTH	Seedling Growth	G
	Root Strength	E
	Stalk Strength	VG
	Plant Height	M-T
	Ear Placement	M
HARVEST	Staygreen	E
	Harvest Appearance	VG
	Drydown	VG
	Test Weight	G
DISEASES/ INSECTS	NCLB R1	G
	NCLB R2	G
	Southern Corn Leaf Blight	A
	Gray Leaf Spot	P
	Eye Spot	A
	Common Rust	F
	Anthracnose Leaf Blight	VG
	Goss's Wilt	G
	European Corn Borer	E
	Rootworm	E

Based on Wensink-conducted trials. Relative to other Wensink brand products. Rating Scale: E=Excellent, VG=Very Good, G=Good, F=Fair, P=Poor. Traits for which no rating value is shown were not rated for this product.

Wensink Seeds Seed Corn Legend

Rating Scale:

E = Excellent
VG = Very Good
G = Good
F = Fair
P = Poor
N/A = Not Available

The ratings are approximate and should not be considered as absolute. Based on Wensink conducted trials relative to other Wensink brand corn.

Value Added Trait:

STAX = SmartSTAX
VT3 = YieldGard VT Triple
RR2 = Roundup Ready Corn 2
W = White
WX = Waxy

Insect Resistance Management

Codes:

L = Low
S = Short
M-S = Medium-Short
M = Medium
M-MH = Medium-Medium High
M-H = Medium-High
MH-H = Medium High-High
M-L = Medium-Low
M-T = Medium-Tall
T = Tall
H = High

GDU (Growing Degree Unit):

Although maturity of one corn product relative to another remains reasonably constant, the actual number of calendar days from planting to any given point of plant development varies with temperature, day length, rate and date of planting, soil fertility and other environmental factors. All GDU values calculated are from the time of planting.

Warranty and Disclaimer of Warranties

Wensink Farm Seeds, Inc. warrants that the products it sells will be labeled as required by law and that they will conform to the label description. WENSINK FARM SEEDS MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR OTHERWISE. There are no guarantees of crop yield or freedom from seed-borne disease. Any recommendations for use of these products or materials or apparatus in connection therewith are based upon Wensink Farm Seeds best judgment, but there is no warranty of results to be obtained in connection therewith.

Limitations of Liability

The exclusive remedy for loss or damage due to breach of the foregoing warranty or contract, or for negligence or other cause shall be limited to return of purchase price of Wensink Farm Seeds' products and shall not include any consequential damages. Claims for defects in Wensink Seeds' products must be presented to Wensink Farm Seeds, Inc. as soon as practicable to enable the seller to investigate the claim and in any event within thirty (30) days after discovery.

Always Read and Follow Label Directions for All Products

The agronomic ratings stated in the product agronomic charts were developed from Wensink Seeds' internally conducted trials, which utilize commonly accepted methodology. These ratings can be used for comparative purposes between established and newly released products. They may not reflect total comparative performance. Actual performance may vary based on a number of factors, including without limiting the prevalence of the disease-causing organism or insect pest and environmental conditions. Product choice should be based on all performance information and not on pest reaction alone.

Updated 12/22/2009

Before opening a bag of seed, be sure to read and understand the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed as set forth in the Monsanto Technology Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation to comply with those stewardship requirements.

Growers should refer to Monsanto's Technology Use Guide for information on crop stewardship regarding the potential movement of pollen to neighboring crops. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

Monsanto Company is a member of BIO's Excellence through Stewardship® (ETS) Initiative. Monsanto products are commercialized in accordance with the ETS Product Launch Stewardship Guidance, and in compliance with Monsanto's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. This product has been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Biotechnology Industry Organization. **B. t. products**, including Genuity SmartStax™ may not yet be registered in all states. Check with your seed representative for the registration status in your state.

Always Read and Follow Pesticide Label Directions. Roundup Ready® crops contain genes that confer tolerance to glyphosate, the active ingredient in roundup® brand agricultural herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate. **IMPORTANT: Grain Marketing and Seed Availability:** Genuity™ SmartStax™ has received necessary approvals in the United States, however, as of 8/5/09 approvals have not been received in certain major corn export markets. Genuity™ SmartStax™ will not be launched and seed will not be available until after import approvals are received in appropriate major corn export markets. **IMPORTANT: Grain marketing and seed availability:** Genuity™ VT Triple PRO™ has received necessary approvals in the United States, however, as of 8/5/09, approvals have not been received in all major corn export markets. Genuity™ VT Triple PRO™ seed will only be available as part of a demonstration program that includes grain marketing stewardship requirements. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Consult with your seed representative for current stewardship information.
