

Wensink Farm Seeds

4704 Wood Road, Monroeville, OH 44847
(419) 359-1501

WHEAT SEED . . . The head scab resistant varieties continue to produce top yields and we now have four different scab resistant varieties available. **REBEL** is an early maturity with excellent test weight and high yields. We still offer the very popular **YUKON**, an early-medium maturity with excellent disease ratings and high yields, **BLAZE**, and the super yielding **DENALI**. All carry the Fhb1 Gene for type II Head Scab Resistance. The Certified Varieties include the new **ENTERPRISE** and the popular **SUNBURST**. See the enclosed flyer for descriptions and characteristics. *Call for prices.*

RYE SEED We will have rye seed available. *Call for price.*

BARLEY SEED . . . We have **SECRETARIAT** which is a true feed variety. *Call for availability and price.*

SPELT SEED We have the improved variety, **SUNGOLD ULTRA MAX**. This has better yield than Sungold and produces excellent straw. *Call for availability and prices.*

SMALL SEED We carry Multifoliate 4x Alfalfa, Timothy, Orchard Grass, Medium Red Clover, Fawn Fescue (endophyte free), and Buckwheat. *Call for Price.*

RADISHES We have Ground Hog Forage and FragiBlaster brand radishes. These are some of the best nitrogen mining and nutrient scavenging varieties available. They can be used alone, with cover crop oats, or in mixtures. They are extremely fast growing and deep penetrating. *Call for price and availability.*

OATS Forage/Cover Crop. We have a limited supply. *Call for Price.*

COVER CROP MIXES We have two cover crop mixes available: **Rye/Tillage Radish** mix and a three way **Rye/Tillage Radish/Buckwheat** mix. Both mixes make it simple and easy to meet H2OHIO program requirements. *Call for Price.*

TRITICALE SEED We are introducing a new variety this year, MegaCut Triticale. This is a medium maturity variety with tall height and very good straw strength. Winter hardiness is excellent. A top producer in tons per acre. See inside for details. Supply will be limited.

TEST PLOTS Check out our test plots of Corn and Soybeans across the road from the seed house. New hybrids & varieties are included and all are labeled.

COMBINE PARTS We have many combine parts including gathering chains, sprockets, SCH Easy-Cut combine sickle bar conversion kits, **Slippery Shoe** plastic combine skid plate covers, nylon reel **Gentle Fingers** (for wooden bats, steel bats, and the new pipe reel design) and much more.

Current pricing on select gathering chains and tines*:

JD (40 & 90 Series) or IH (800-1000 series & more) or NH(974 series)(chrome pins)-----	\$43.63
JD (600 Series, before S/N 745100)(chrome pins) -----	\$65.87
JD (600 Series, after S/N 745100)(chrome pins)-----	\$43.93
Double Bat Tine for Pipe Reels (Wings w/6" spacing) -----	\$3.39

SCH EASY CUT COMBINE CUTTING SYSTEM - Big savings on kits thru August, call for kit costs.

Kits include all guards, knifeback, drivehead, sections, rollers or wearpads, and hardware. Some prices:

- 15' Kits: \$1,627 with rollers or \$1,472 with wearpads
- 20' Kits: \$2,051 with rollers or \$1,844 with wearpads
- 30' Kits: \$2,317 with rollers & single drive, or \$2,574 with rollers & double drive

TILLAGE PARTS We carry Wiese and CFC tillage parts. Current Prices*:

3" Twisted Plow Chisels (1/2" x 3" x 23") -----	\$32.78
4" Twisted Plow Chisels (1/2" x 4" x 26") -----	\$36.30
2.5" Extra Heavy Duty Straight Chisels (1" x 2-1/2" x 20") -----	\$64.78
7" x 1/4" F.C. Sweeps JD,IH,Sunflower,others (47°, 1-3/4" hole spacing, 7/16" holes) ----	\$10.19
9" x 1/4" Field Cultivator Sweeps JD,IH,Sunflower, and others (") -----	\$11.30
7" x 5/16" Mega Wing Field Cultivator Sweeps JD,IH,Sunflower,others (") -----	\$14.28
9" x 5/16" Mega Wing Field Cultivator Sweeps JD,IH,Sunflower, and others (")-----	\$14.99
2-3/4" x 5/16" Field Cultivator Sweeps for Kongskilde (2 hole Danish Tine, 7/16" holes) ----	\$8.76
20" x 1-1/2"R Soil Saver Coulter Blades (6 ga (0.197") Thick - other shaft sizes available) \$48.82	
20" x 1-1/2"R Soil Saver Coulter Blades (1/4" Thick - other shaft sizes available)-----	\$58.60
20" x 7 ga Disc Blades (0.177" Thick)-----	\$50.78
20" x 6mm Vortex Coulter Blades (Vertical Tillage Blade) -----	\$75.04

*Prices subject to change. The next tillage parts shipment order deadline is August 31, 2025.

2025 PRIVATE SEED WHEAT VARIETIES

Blaze ➔ HEAD SCAB RESISTANT

- Early maturity (-3 to Denali) with excellent tillering
- Carries Fhb1 gene for Type II scab resistance which significantly reduces spread of scab
- Excellent disease ratings & test weight
- Outstanding straw yields
- Very healthy plant with a dark green flag leaf
- Great choice for double crop

Denali ➔ HEAD SCAB RESISTANT

- Medium maturity (+1 to Sunburst)
- Outstanding yield & test weight
- Carries Fhb1 gene for Type II scab resistance
- Good disease ratings
- Nice height, deep color, bearded plant
- Uniform big-sized heads
- Very good tillering and many 2nd layer heads
- Exceptional performance with management
- Handles heavier soils and wet situations

Rebel ➔ HEAD SCAB RESISTANT
➔ YIELDS! YIELDS! YIELDS!

- Early maturity (-2 to Denali)
- Exceptional scab tolerance plus carries Fhb1 gene for Type II scab resistance
- Highest yielding, smooth head variety
- Heavy test weight and large heads
- Very good straw yield with excellent standability

Yukon ➔ HEAD SCAB RESISTANT
➔ YIELDS! YIELDS! YIELDS!

- Early-medium maturity (-1 to Denali)
- Carries Fhb1 gene for Type II scab resistance
- Excellent spring tillering adds a lot of second layer heads
- Will produce lots of straw without getting too tall
- Great choice for early planting
- Bright colored straw with a bearded head
- This variety has shown it can do everything Denali can, but a few days earlier

2025 CERTIFIED SEED WHEAT VARIETIES

Enterprise

- Early maturity, earlier than Sunburst
- High yielding with excellent test weight
- Medium-tall plant height with good straw strength
- Awnless tan chaffed variety
- Very good resistance to Fusarium Head Blight & Powdery Mildew
- Moderate resistance to Glume Blotch
- Good Leaf Rust and Stripe Rust resistance

Sunburst

- Consistent high yielder in our plots
- Mid-season beardless variety
- High test weight
- Good disease resistance
- Yellow straw with shorter plant height and excellent straw strength

2025 SEED TRITICALE VARIETIES

MegaCut

- Medium maturity
- Excellent winter hardiness
- NDF is equal to Gainer with more tons/ac
- High leaf to stem ratio
- Abundant, large leaves

	Dry Matter Yield (t/ac)	NDF (%)
MegaCut	5.2	61.6
Gunner	5.1	58.0
Gainer	4.8	61.6
Progas	4.7	64.7
